INFORMATION PACKAGE European Credit Transfer System (ECTS)

Branch of knowledge 07 «Management and

Administration»

Specialty 071 «Accounting and taxation»

Specialization «Digital audit and analysis»

Educational degree «bachelor»

Educational program

Profile of the educational program in the specialty 071 "Accounting and taxation"

(Specialization "Digital Audit and Analysis")

(Special	1 - General information
Full name of University and structural unit	Kyiv National University of Trade and Economics Faculty of Finance and Accounting, Department of Financial Analysis and Auditing
Higher education degree and the name of the qualification in the original language	Bachelor's degree Specialty "Accounting and Taxation" Specialization "Digital Audit and Analysis"
Official name of educational program	«Digital Audit and Analysis»
Diploma type and the amount of education program	Bachelor's degree, unitary, 240 ECTS credits, study period 3 years 10 months
Availability accreditation	Ministry of Education and Science of Ukraine, Ukraine Accreditation period - 2014-2024.
Cycle / level	HPK of Ukraine - level 6, FQ-ENEA - the first cycle, EQF-LLL - level 6
Prerequisites	Availability of complete general secondary education
Language of instruction	Ukrainian
Validation of educational programs	2024

Internet address of permanent placement of educational program description	https://knute.edu.ua/
2 - T	he purpose of the educational program
accounting, taxation, ana	nowledge, skills and understanding related to the areas of alysis, control and audit of financial statements, the provision d services to businesses, which will enable them to perform
3 – Ch	aracteristics of the educational program
Subject area (branch of knowledge, specialty, specialization)	Field of knowledge 07 "Management and administration" Specialty 071 "Accounting and Taxation" Specialization "Digital Audit and Analysis"
Orientation of educational program	The educational and professional program is aimed at forming a set of competencies in accounting, taxation, analysis, control and audit, contains a list of learning outcomes that are necessary in the system of management and administration
The main focus of the educational program and specialization	Emphasis on review and knowledge of accounting, taxation and analysis of the formation and use of financial resources of economic entities, control of financial activities and audit services based on modern interdisciplinary approaches. Ability to understand and critically evaluate the transformational processes taking place in society. Key words: control, digital, analysis, audit, accounting, taxation
Features of the program	The program provides for the need for research and practice. The program provides the ability to solve complex problems in specialized areas, to perform digital analytics and audit of social networks, BI - analysis and data mining

4 – Suitability	of graduates for employment and further study
Suitability for employment	Employment at enterprises of various forms of ownership in public authorities and local governments, public organizations in the positions of specialists whose functional responsibilities relate to positions: auditor, state auditor, accountant-auditor, auditor-inspector, accountant, auditor-inspector of tax, economist, economist in accounting and business analysis, assistant accountant-expert, junior researcher (audit, accounting), internal auditor, digital analyst, digital director, network accountant, virtual accountant, network audit consultant, information analyst, web -analyst, developer of Big Data models.
Further teaching	Opportunity to study according to the program of the second (master's) level of higher education. Acquisition of additional qualifications in the system of postgraduate education.
	5 - Teaching and assessment
Teaching and teaching	Student-centred learning, self-study, problem-oriented learning with the obligatory use of lectures, seminars, practical classes on problem solving, course work and research.
Evaluation	Written exams, current control, essays, presentations, scientific article, abstracts, qualifying exam. Assessment is carried out in accordance with the "Regulations on the organization of the educational process of students" and "Regulations on the assessment of learning outcomes of students and graduate students"
	6 – Program competencies
Integral competence	Ability to solve complex specialized problems and practical problems during professional activities in the field of accounting, auditing, analysis, control and taxation or in the learning process, which involves the application of theories and methods of economics and is characterized by complexity and uncertainty.

General Competence (GC)

GC01. Ability to learn and master modern knowledge.

GC02. Ability to abstract thinking, analysis and synthesis.

GC03. Ability to work in a team.

GC04. Ability to work autonomously.

GC05. Appreciation and respect for diversity and multiculturalism.

GC06. Ability to act on the basis of ethical considerations (motives).

GC07. The ability to be critical and self-critical.

GC08. Knowledge and understanding of the subject area and understanding of professional activity.

GC09. Ability to communicate in the state language both orally and in writing.

GC 10. Ability to communicate in a foreign language.

GC11. Skills in using modern information systems and communication technologies.

GC12. The ability to act socially responsibly and consciously.

GC13. Ability to conduct research at the appropriate level.

GC14. The ability to exercise their rights and responsibilities as a member of a society, to realize the values of civil (free democratic) society, the rule of law, human and civil rights and freedoms in Ukraine.

GC15. Ability to preserve and multiply moral, cultural, scientific values and achievements of society based on understanding the history and patterns of development of the subject area, its place in the general system of knowledge about nature and society and in the development of society, machinery and technology, lead a healthy lifestyle.

Special (professional) competence (SC)

SC01. Ability to study economic trends using the tools of macro- and microeconomic analysis, to make generalizations to assess the manifestation of individual phenomena inherent in modern processes in the economy, including understanding of methods of building e-business, its tools in different market segments.

SC02. Use mathematical tools to study socio-economic processes, solve applied problems in the field of accounting, analysis, control, audit, taxation, *including digital audit and analysis*.

SC03. Ability to display information about business operations of financial entities in financial and management accounting, their systematization, generalization in reporting and interpretation to meet the information needs

- of decision makers, including the application of the principles of digital technology in analysis and audit.
- SC04. Apply knowledge of *information* law and tax law in the practice of business entities.
- SK05. Conduct an analysis of economic activity of the enterprise and financial analysis, *BI* analysis, intellectual analysis of data on the activities of enterprises in order to make management decisions.
- SC06. Perform accounting procedures using specialized information systems and computer technologies, *in particular, digital technologies and cloud infrastructures*.
- SC07. Apply audit techniques and assurance services, including digital audit and analysis.
- SC08. Identify and assess the risks of failure to achieve management objectives of the entity, non-compliance with legislation and regulation of activities, inaccuracy of reporting, preservation and use of its resources.
- SC09. Carry out external and internal control of the enterprise activity and its compliance with the legislation on accounting and taxation, *in particular to carry out digital analytics*.
- SC10. Ability to apply ethical principles in the performance of professional duties.
- SC.11 Demonstrate an understanding of the requirements for professional activity due to the need to ensure sustainable development of Ukraine, its strengthening as a democratic, social, legal state, in particular to apply digital audit procedures using modern technologies and tools for its implementation.
- SC 12. Ability to apply a comprehensive integrated solution to analyse data coming from different sources, accounting and exchange information, in the unique environment.
- SC13. Ability to perform strategic data analysis and support the management decision-making process.
- SC14. Ability to perform intelligent business data analysis and programming in the accounting and control environment.

7 – Program learning outcomes

- PLO 1. Know and understand the economic categories, laws, causal and functional relationships that exist between processes and phenomena at different levels of economic systems.
- PLO 2. Understand the place and importance of accounting, analytical, control, tax and statistical systems in the information support of users of accounting and analytical information in solving problems in the field of social, economic and environmental responsibility of enterprises.
- PLO 3. Define the essence of objects of accounting, analysis, control, audit, taxation and understand their role and place in economic activity.
- PLO 4. Form and analyse financial, management, tax and statistical reporting of enterprises and interpret correctly the information obtained for management decisions.
- PLO 5. Have methodological tools for accounting, analysis, control, audit and taxation of economic activity of enterprises.
- PLO 6. Understand the peculiarities of the practice of accounting, analysis, control, audit and taxation of enterprises of different forms of ownership, organizational and legal forms of management and types of economic activity.
- PLO 7. Know the mechanisms of functioning of the budget and tax systems of Ukraine and take into account their features in order to organize accounting, the choice of taxation system and the formation of reporting in enterprises.
- PLO 8. Understand the organizational and economic mechanism of enterprise management and evaluate the effectiveness of decision-making using accounting and analytical information.
- PLO 9. Identify and assess the risks of economic activity of enterprises.
- PLO 10. Understand the theoretical foundations of auditing and be able to apply its methods and procedures.
- PLO 11. To determine the directions of increasing the efficiency of formation of financial resources, their distribution and control of use at the level of enterprises of different organizational and legal forms of ownership.
- PLO 12. Use specialized information systems and computer technology for accounting, analysis, control, audit and taxation.

PLO 13. Understand the peculiarities of the functioning of enterprises in modern economic conditions and demonstrate an understanding of their market positioning.

PLO 14. Be able to apply economic and mathematical methods in the chosen profession.

PLO 15. Possess general scientific and special methods of research of socio-economic phenomena and economic processes at the enterprise.

PLO 16. Possess and apply knowledge of state and foreign languages for the formation of business papers and communication in professional activities.

PLO 17. To be able to work both independently and in a team, to show leadership qualities and responsibility in work, to adhere to ethical principles, to respect individual and cultural diversity.

PLO 18. Analyse the development of accounting systems, models and methods at the national and international levels in order to justify the feasibility of their introduction in the enterprise.

PLO 19. Adhere to a healthy lifestyle, safety of life of employees and take measures to preserve the environment.

PLO 20. Perform professional functions taking into account the requirements of social responsibility, labour discipline, be able to plan and manage time.

PLO 21. Understand the requirements for the specialty, due to the need to ensure sustainable development of Ukraine, its strengthening as a democratic, social, legal state.

PLO 22. Understand and realize their rights and responsibilities as a member of society, to realize the values of a free democratic society, the rule of law, human and civil rights and freedoms in Ukraine.

PLO 23. Preserve and increase the achievements and values of society based on understanding the place of the subject area in the general system of knowledge, use different types and forms of physical activity to lead a healthy lifestyle.

8 – Resource support for program implementation

Staff support

The presence of the department responsible for preparing applicants for higher education "Bachelor". The presence of the scientific and pedagogical staff of the department, which is responsible for the training of applicants for higher education, "Bachelor" - 15 people with a degree and academic title. The head of the department (guarantor of the educational program) has a scientific degree and academic title in the relevant specialty and experience of scientific and

	pedagogical work for at least 10 years.
Material and technical support	Classrooms are equipped with modern demonstration equipment, computer rooms - equipment with the latest software versions.
Information and educational methodical support	Availability of published monographs, teaching aids, reference notes of lectures, workshops (cases), guidelines for writing term papers, recommendations for independent work of students to ensure the learning process.
	9 – Academic mobility
National credit mobility	Under the terms of credit mobility, all credits obtained by the student outside the place of basic study and which are components of the educational program are recalculated.
International credit mobility	According to the programs of international cooperation, the best students of Kyiv National University of Trade and Economics with knowledge of foreign languages and according to the KNUTE rating have the opportunity to study abroad.
Teaching foreign applicants for higher education	Teachers can teach subjects in a foreign language (English)
