Since days I have been thinking of you and your families and also of the Ukraine people. When I see pictures of Kiev on TV I get terribly sad and remember our beautiful days on the IGWT Symposium and also the visiting -excursion I made with my colleagues and students to you.

There are no words to express my deep sorrow about what happens- you are right- it is surreal, it is a nightmare which became true.

We all do not know where it will end for you, the Ukraine people, for the Russian people and for the rest of Europe.

Of cause all my thoughts and prayers are with you and the Ukraine people.

Directly I can only help if your family members or you go to another European country, also Austria takes Ukraine people. If there is any other possibility to support you personally let me know.

Please inform us on your further situation so we can make your reports available for historical reports.

I embrace you all

Eva
