2-]	EDUCATIONAL PROGRAM (EP) AIM			

Educational program provides a quality legal education with the prospect of successful employment, trains competitive professionals with a special interest in commercial law who are ready for dynamic changes in legal regulation, constant self-improvement, enrichment of legal awareness and legal culture. The program educates highly qualified professionals who are able to work successfully in the field of law based on acquired integrated, general (instrumental, interpersonal, systemic) and professional competencies.

Program objectives:

- to train highly qualified lawyers who meet the demands of the labor market and specialists with a high level of academic knowledge, certain practical skills, expressed leadership qualities, developed communication skills, broad-based knowledge and sense of social responsibility, edhesion to ethical profession standards, the ability to orient freely in the digital space;
- masters should get possession of mechanisms, procedures, forms, methods and tools for the implementation of law; the ability to apply them in practice and foresee the consequences of application at the individual, social and international levels;
- to promote respect for the legal profession, moral, ethical and other qualities of a worthy representative of the legal community;
- to deep knowledge of patterns, trends and regulation features of the commercial relations;
- to deep knowledge and skills of English legal language in professional activity;
- to form a set of general and professional competencies necessary for passing the unified state qualification exam and to continue legal education at the third level of higher education;
- to form the ability to in-depth analysis and scientifically sound critical assessment of all types of legal data, legal phenomena and legal practice in the context of current trends in law and the national legal system;
- to form readiness for lifelong learning, to create conditions for constant personal and professional development;
- to develop skills of independent scientific (scientific-practical) research, culture of academic integrity, comprehensive solution of complex scientific problems, to conduct constructive discussions, convincing argumentation of the author's conclusions, quality presentation of the results.

	updating of their knowledge and their creative
	application;
	- Seven-week internship at enterprises, institutions,
	organizations, jurisdictional state bodies, notary
	offices and advocacy, special courts and arbitration.
4 – G	raduate employability and further learning
Employability	According to the National classifier of Ukraine: (DK 003:
	2010), requires the presence of the first (bachelor's) higher
	educational level of "Law"081.
Further learning	Masters have the opportunity to continue education at the
	third level of higher education; to receive additional
	education in certified programs and postgraduate programs;
	to upgrade skills; to acquire additional qualifications in the
	adult education system.
	5 – Teaching and Assessment
Teaching and study	Education of masters in KNTEU is an intellectual, creative
	activity which is exercised through the system of advanced
	scientific-methodical and pedagogical actions; is carried
	out on the basis of problem-oriented approach using
	modern educational technologies and techniques; is focused
	on the individual interaction of teacher and student;
	provides a balanced combination of theoretical and
	practical training; is focused on the student's deep

	assimilation of knowledge, skills and abilities necessary for
	the effective implementation of professional activities; aims
	to form a comprehensively developed, harmonious
	personality and social responsibility.
	Basic teaching methods are used:
	- participation in lectures, seminars, consultations and
	in problem-oriented classes;
	- the work with scientometric and other professional
	databases;
	- preparation of group projects, procedural documents
	and scientific articles;
	- conducting scientific researches;
	- conference tracks;
	- socializing with experts in the field of law.
Assessment	Assessment is carried out in accordance with the
	"Regulations on organization of Students' Educational
	process " and " Regulations On Evaluation of Students
	and Postgraduate Students' Learning Outcomes."
	Current control (testing, project protection, discussing
	situational tasks (cases), business games, etc.); final
	control (module tests); practical training; final semester
	control (exam); final assessment (defense of of the
	Master's Thesis and passing the unified state
	qualification exam adopted by the Cabinet of Ministers
	of Ukraine). All types of current assessment are carried
	out during the implementation of the curriculum.

Written exam is the final form of assessment for all components of the educational program.

2.2. Structural and logical scheme of EP

3.3. Final assessment

Final assessment of the second (master) graduate's level of higher education in specialty 081 "Law" is carried out in the form of:

- Complex qualifying examination in accordance with the procedure established by the Cabinet of Ministers of Ukraine;

- public defence of the Master's Thesis.

The final qualifying paper is aimed at solving a specific and / or practical problem in the field of law, which involves research and / or innovation.

The final qualification paper shall not contain academic plagiarism, fabrication and / or falsification.

The final qualification paper should be made public on the website of the higher education institution / its subdivision or in the repository of the higher education institution.

The publications of final qualification papers that contain information with limited access are carried out in accordance with the requirements of current legislation.

If a student passes the certification successfully, he/she is issued a standard document on awarding him/her a master's degree with the qualification: degree of higher education (Master's degree) in specialty "Law" specialization "Commercial Law".
