

To Mazaraki Anatoly Antonovich,
Pritulska Natalia Vladimirovna,
All KNUTE personal,
All Students of Kiev National University of Trade and Economics

During current terrifying events created by despicable invasion of Russian army to Ukrainian soil we want you to know that we are with you with all our hearts.

We are very active in USA and Canada and trying to push officials on every level to act faster. We have many calls with Canadian-Ukrainian diaspora and bringing our messages to Canadian leadership. We are involved in massing advertising campaigns to spread the truth about this war to many influential people around the world.

We are witnessing many heroic acts by Ukrainian people. Your heroism inspired millions of people across the globe.

We are hoping this madness will soon stop, and you can get back to a normal life. We all will have scars on our hearts for many years to come about this horrible act, but we will try hard to heal those scars. We have many training courses that will be available free for students and many scholarship programs for training from our partners. We are negotiating price reduction or even removal for all Ukrainians with Coursera and other MOOCs platforms. We have multiple startups and will invite your students to participate and have training with the best experts in their respective fields.

Please stay strong and let God be with you.

СЛАВА УКРАИНЕ, СЛАВА УКРАИНСКИМ ЛЮДЯМ. ВЫ И ЕСТЬ ГЕРОИ
