Professional Competence	PC1. A thorough preparation in sociology for the use
(PC)	of the sociological apparatus in solving applied and
	scientific problems in the field of sociology.
	PC2. Ability to apply professionally profiled
	knowledge in the field of general subjects in the
	o o o
	process of solving professional tasks.
	PC3. Ability to use professionally profiled knowledge
	and skills in the field of empirical sociological
	research.
	PC4. Readiness to participate in the preparation,
	organization and conduct of social studies in order to
	identify socially significant problem situations, identify
	strategies, methods for their study and develop
	recommendations for their solution
	PC5. Possessing the skills of processing sociological
	data and social statistics on the basis of the use of
	modern information technology, specialized software.
	PC6. Ability to draw up and present the results of
	scientific research and scientific and applied work in
	accordance with normative documents and standards.
	PC7. Ability to present the results of their own
	sociological research to a wide audience professionally
	and accurately.
	PC8. Use Internet resources to solve experimental and
	-
	practical tasks in the field of professional activity. PC9. Ability to business communication in the
	professional field, knowledge of the basics of business
	communication in a foreign language, business documentation.
	PC10. Readiness for socio-economic activity,
	•
	forecasting of economic phenomena in society.
	PC11. Possessing skills of differentiation of social
	work with clients taking into account their national-
	cultural, age, gender and social status and individual-
	psychological characteristics.
	PC12. Organization and conducting of measures on
	prevention of social problems, crisis management.
	PC13. Ability to use profiled knowledge professionally
	in the field of sociology, psychology, medicine,
	pedagogy, law, management and other sciences for
	diagnostics, forecasting, designing and modeling of
	social processes and phenomena in the context of social
	protection of the population.
	PC14. Compliance with the professional ethics of
	sociological activities.
	PC15. Ability to establish, maintain and develop

interdisciplinary professional cooperation, corporate
responsibility based on knowledge of the organization
of work of the sociological service in the system of
state and non-state bodies.
PC16. Possessing the skills of developing projects and
applications for participation in Ukrainian and
international contests in order to obtain funding for
innovative services or the development of scientific and
research contacts.
PC17. Understanding the causal relationships of the
development of society and their ability to use them in
professional activity and analyze historical processes
comprehensively, events and facts on scientific loans
and their interpretation.
PC18. Ability to conduct sociological research in the
field of socio-economic activity.
7 - Program learning results.

PLR1. To search, analyze and synthesize information from different sources for solving specialty tasks, to reproduce facts (dates, events, principles and regularities of social development), to establish causal relationships between events, phenomena, to draw conclusions, to argue their thoughts.

PLR2. To speak correctly in oral and written form, use the language of professional communication, explain and characterize facts and phenomena in the state language.

PLR3. To understand the scientific principles that underlie social activity, identify, formulate and solve tasks in the specialty, integrate theoretical knowledge and practical experience.

PLR4. To define and distinguish the basic concepts, use their own examples to illustrate the answers, find common features and differences when comparing facts and phenomena, characterizing social phenomena.

PLR5. To apply effective methods, procedures and technologies of sociological research by ensuring the internal orderliness and coherence of individual elements in scientific research.

PLR6. To develop projects, perspective and current plans, programs of events, to make effective decisions promptly in difficult situations.

PLR7. To use applied computer programs in solving professional tasks.

PLR8. To organize activities related to the study of legislative acts aimed at the development of the legal and regulatory framework for the activities of the Sociological Service.
